

I am going to
Horn Hill Dental Practice

With An Adult

Before we go:

My adult will book an appointment over the phone or at the Reception in Horn Hill Dental Practice.

I can choose an activity/item to take with me to Horn Hill Dental Practice.

On The Day

I am going to Horn Hill Dental Practice to get a check-up on my teeth.

When we get inside, we will go to the counter and my adult will tell the Receptionist my name.

I may have to wait my turn. If I do, we can sit in one of the waiting areas. There may be other people waiting too.

While I wait I can play with my chosen item or do my activity.

If I need to use the toilet, there is one in Horn Hill Dental Practice. It is at the bottom of the stairs.

When it is time for my check-up the Dentist will take me to another room.

The Dentist and Dental Staff are very friendly. They wear gloves on their hands to keep the room nice and clean.

The Dentist will ask me to sit on a special chair.

The Dentist's chair moves up and down. This is so the Dentist can see my teeth properly.

The Dentist will turn on a bright light so they can see my teeth.

The Dentist will ask me to wear sunglasses because the light is bright.

If I feel scared or worried I can ask questions or ask to stop for a minute.

The Dentist will ask me to open my mouth. They will count and check my teeth with a small mirror. This doesn't hurt.

When the Dentist is finished I will give the Dental Nurse the sunglasses.

I will get to choose a sticker as a reward for doing so well.

My adult will book my next appointment at the counter.

I will then walk nicely out of Horn Hill Dental Practice with my adult.
